Results-driven AI Full Stack Developer with 1 year of experience building AI-powered applications, automation platforms, and intelligent web solutions using Next.js, React.js, Node.js, PostgreSQL, Prisma ORM, and modern AI technologies. Experienced in integrating Large Language Models (LLMs), developing AI-driven workflows, automating business processes, and creating scalable SaaS products. Skilled in designing responsive user interfaces, building secure APIs, managing cloud-based deployments, and developing production-ready AI applications. Passionate about leveraging artificial intelligence to solve real-world problems, improve productivity, and deliver innovative digital experiences.

EXPERIENCE

FULL STACK DEVELOPER

BAU AI, USA (Remote)

JUNE 2025 – PRESENT

Developed and maintained AI-powered web applications and intelligent automation platforms using Next.js, React.js, JavaScript, PostgreSQL, and Prisma ORM. Integrated AI services and LLM-based workflows to automate business processes and enhance user productivity. Built scalable backend systems, secure authentication mechanisms, RESTful APIs, and responsive user interfaces. Optimized database performance, collaborated with remote teams through Git and GitHub, participated in code reviews, and contributed throughout the software development lifecycle from development and testing to deployment and maintenance.

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING

Sanjivani College of Engineering

JUNE 2024

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence Fundamentals.
- Developed full-stack and AI-powered applications using modern web technologies.
- Worked on projects involving automation, intelligent workflows, database design, and scalable application development.

PROJECTS

AGROPEER AI
Developed Agropeer AI, an AI-powered agriculture management platform available on web and Android. Built intelligent tools for farm operations, agricultural record management, and data-driven decision-making. Developed responsive interfaces, secure backend services, and mobile deployment using Capacitor. The Android application is currently live on the Google Play Store.
Technologies: Next.js, React.js, Node.js, PostgreSQL, Prisma ORM, Tailwind CSS, AI APIs, REST APIs, Capacitor, Android, Git, GitHub.

AI RESUME BUILDER
Built an AI-powered resume generation platform that creates professional ATS-friendly resumes using LLM-based content generation. Implemented AI-assisted resume writing, summary generation, skill optimization, and resume enhancement features. Developed scalable backend services, secure authentication, and responsive user experiences.

Technologies: Next.js, React.js, Node.js, PostgreSQL, Prisma ORM, OpenAI API, Tailwind CSS, Git, GitHub.

WHATSAPP AI AUTOMATION PLATFORM
Developed an AI-powered WhatsApp automation and bulk messaging platform enabling intelligent campaign management, message scheduling, customer engagement, and automated communication workflows. Built scalable backend services and real-time monitoring dashboards to support high-volume messaging operations.

Technologies: Next.js, React.js, Node.js, PostgreSQL, Prisma ORM, WhatsApp Business API, AI APIs, REST APIs, Tailwind CSS, Git, GitHub.

SKILLS

Languages: JavaScript, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: PostgreSQL, MongoDB, MySQL, Prisma ORM
AI & Automation: OpenAI API, LLM Integration, Prompt Engineering, Workflow Automation
Tools: Git, GitHub, Capacitor, Vercel, Linux
Professional: Problem Solving, Team Collaboration, Agile Development, Communication Skills
